# Store The actual Events In a Decentralized and Secure way

## Let's Protect our own History !!

The screenshot shows the Histified website interface. At the top, there is a navigation bar with the Histified logo (a yellow square with a white 'H'), followed by the words 'Histified'. To the right of the logo are four menu items: 'Home', 'Features', 'About', and 'Analyze', with 'Analyze' being highlighted in a yellow box. Below the navigation bar, the main title 'Upload File' is displayed in large, bold, white font. Underneath the title, a subtitle 'Store and verify your file on the blockchain' is shown in a smaller, gray font. On the right side of the title area, there is a 'Back' button with a left arrow icon. The central part of the page features a large dashed rectangular area for file upload, containing a yellow upward-pointing arrow icon. Below this area, the text 'Upload File to Secure' is centered in white, followed by the instruction 'Drag and drop or click to browse' in a smaller gray font. A note 'Supported: Images, Videos, Documents (Max 100MB)' is also present. At the bottom of the page, there are two buttons: 'Cancel' on the left and a larger 'Secure File' button on the right, both in white text.
